Independent auditor's report

To the Shareholders of
Tharwa Investment Company – KSC (Closed)
Kuwait

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Tharwa Investment Company – KSC (Closed) ("the Parent Company") and its Subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. Other information consists of the report of the Parent Company's board of directors, other than the consolidated financial statements and our auditor's report.

Our opinion on the consolidated financial statements does not cover the accompanying other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditor's Report to the Shareholders of Tharwa Investment Company – KSC (Closed) (continued)

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements (continued)

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent Auditor's Report to the Shareholders of Tharwa Investment Company – KSC (Closed) (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)
We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements
Furthermore, in our opinion, proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's board of directors relating to these consolidated financial statements, are in accordance therewith. We further report that we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the Companies Law No. 1 of 2016 and its Executive Regulations, and by the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016 and its Executive Regulations, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, have occurred during the year ended 31 December 2023 that might have had a material effect on the business or financial position of the Parent Company.

We further report that, during the course of our audit, we have not become aware of any material violations of the provisions of Law 7 of 2010, concerning the Capital Markets Authority and its related regulations during the year ended 31 December 2023 that might have had a material effect on the business or financial position of the Parent Company.

Notes to the consolidated financial statements

1 Incorporation and activities of the Parent Company

Tharwa Investment Company was established as a Kuwaiti Closed Shareholding Company on 28 August 2006 as per the Memorandum of Incorporation No. 6156/Vol.1 as amended.

Tharwa Investment Company – KSC (Closed) ("the Parent Company") and its subsidiaries are collectively referred to as "the Group" in these consolidated financial statements. Details of subsidiaries are set out in note 6.

The Parent Company is regulated by the Capital Markets Authority as an investment Company. On 24 May 2022, at the request of the Parent Company, the Central Bank of Kuwait ("CBK") removed it from the CBK register.

The shareholders of the Parent Company approved in the Extra Ordinary General Meeting held on 1 February 2022 to amend Parent Company's activities to become as follows (note 23):

- Investment in real estate, industrial, agricultural and other economic sectors by contributing to the establishment of specialised companies or acquiring shares or bonds of these companies in various sectors inside and outside Kuwait.
- Contribution to the establishment of partial ownership of companies in different sectors.
- Investment portfolio manager.
- Investment consultant.
- Performing brokerage role in international trade operations.
- Dealing and trading in foreign exchange market and precious metals market inside and outside Kuwait for the benefit of the Company only.
- Transactions related to the trading of securities including purchase or sale of shares and bonds of companies and local and international government agencies.
- Collective investment scheme manager.
- Market maker.

Further, the Parent Company has the right to participate and subscribe, in any way with other firms which operate in the same field or those which would assist in achieving its objectives in Kuwait and abroad and to purchase those firms or participate in their equity.

The address of the Parent Company's registered office is PO Box 811, Safat 13009, State of Kuwait, Al-Raya Tower (2), Floor 21 & 22, Omar Bin Al Khattab Street, Sharq, Kuwait.

The Board of Directors of the Parent Company authorised these consolidated financial statements for issue on 25 January 2024. The General Assembly of the Parent Company's shareholders has the power to amend these consolidated financial statements after issuance.

2 Statement of compliance

These consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS") promulgated by the International Accounting Standards Board ("IASB.

Notes to the consolidated financial statements (continued)

3 Changes in accounting policies

3.1 New and amended standards adopted by the Group

The following new amendments or standards were effective for the current period.

Standard or Interpretation	*Effective for annual periods beginning*
IAS 1 Amendments- Disclosure of accounting policies	1 January 2023
IAS 8 Amendments- Definition of accounting estimates	1 January 2023
IAS 12 Income taxes- Deferred tax related to assets and liabilities arising from a single transaction	1 January 2023
IAS 12 Amendments- International Tax Reform-Pillar Two Model Rules	1 January 2023

IAS 1 Amendments and IFRS Practice Statement 2 – Disclosure of accounting policies

The amendments to IAS 1 require entities to disclose material accounting policies instead of material accounting policies to assist entities to provide accounting policy disclosures that are more useful. The amendments clarify that accounting policy information may be material because of its nature, even if the related amounts are immaterial.

The adoption of the amendments did not have a significant impact on the Group's consolidated financial statements.

IAS 8 Amendments – Definition of accounting estimates

The amendments to IAS 8 inserted the definition of accounting estimates replacing the definition of a change in accounting estimates. Accounting estimates are now defined as monetary amounts in financial statements that are subject to measurement uncertainty.

The adoption of the amendments did not have a significant impact on the Group's consolidated financial statements.

IAS 12 Amendments – Income taxes- Deferred tax related to assets and liabilities arising from a single transaction

The amendments to IAS 8 provide an exemption from the initial recognition exemption provided in IAS 12.15(b) and IAS 12.24. Accordingly, the initial recognition exemption does not apply to transactions in which equal amounts of deductible and taxable temporary differences arise on initial recognition.

The adoption of the amendments did not have a significant impact on the Group's consolidated financial statements.

IAS 12 Amendments – International Tax Reform-Pillar Two Model Rules

The amendments introduce the following:

- an exception to the requirements in the standard that an entity does not recognise and does not disclose information about deferred tax assets and liabilities related to the OECD pillar two income taxes;
- an entity applies the exception disclose that it has applied the exception immediately upon issuance of the amendments;
- a disclosure requirement that an entity has to disclose separately its current tax expense (income) related to pillar two income taxes;
- a disclosure requirement that state that in periods in which pillar two legislation is enacted or substantively enacted, but not yet in effect, an entity discloses known or reasonably estimable information that helps users of financial statements understand the entity's exposure to pillar two income taxes arising from that legislation;

The adoption of the amendments did not have a significant impact on the Group's consolidated financial statements.

Notes to the consolidated financial statements (continued)

3 Changes in accounting policies (continued)

3.2 IASB Standards issued but not yet effective

At the date of authorisation of these consolidated financial statements, certain new standards, amendments and interpretations to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the Group.

Management anticipates that all of the relevant pronouncements will be adopted in the Group's accounting policies for the first period beginning after the effective date of the pronouncements. Information on new standards, amendments and interpretations that are expected to be relevant to the Group's consolidated financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Group's consolidated financial statements.

Standard or Interpretation	*Effective for annual periods beginning*
IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments	No stated date
IAS 1 Amendments- Classification of liabilities with debt covenants	1 January 2024
IAS 1 Amendments- Classification of liabilities as current or non-current	1 January 2024
IAS 7 and IFRS 7 Supplier finance arrangement disclosures	1 January 2024
IAS 21 Amendments – Lack of exchangeability	1 January 2025
IFRS 16 Amendments- Lease liability in a sale and leaseback	1 January 2024

IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments

The Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (2011) clarify the treatment of the sale or contribution of assets from an investor to its associate or joint venture, as follows:

- require full recognition in the investor's financial statements of gains and losses arising on the sale or contribution of assets that constitute a business (as defined in IFRS 3 Business Combinations)
- require the partial recognition of gains and losses where the assets do not constitute a business, i.e. a gain or loss is recognised only to the extent of the unrelated investors' interests in that associate or joint venture.

These requirements apply regardless of the legal form of the transaction, e.g. whether the sale or contribution of assets occurs by an investor transferring shares in a subsidiary that holds the assets (resulting in loss of control of the subsidiary), or by the direct sale of the assets themselves.

IASB has postponed the effective date indefinitely until other projects are completed. However, early implementation is allowed. Management anticipates that the application of these amendments may have an impact on the Group's consolidated financial statements in future should such transactions arise.

IAS 1 Amendments - Classification of liabilities with debt covenants

The amendments to IAS 1 clarify that classification of liabilities as current or non-current depends only on the covenants that an entity is required to comply with on or before the reporting date. In addition, an entity has to disclose information in the notes that enables users of financial statements to understand the risk that non-current liabilities with covenants could become repayable within twelve months.

Management does not anticipate that the adoption of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

Notes to the consolidated financial statements (continued)

3 Changes in accounting policies (continued)

3.2 IASB Standards issued but not yet effective (continued)

IAS 1 Amendments - Classification of liabilities as current or non-current
The amendments to IAS 1 clarify the classification of a liability as either current or non-current is based on the entity's rights at the end of the reporting period. Stating management expectations around whether they will defer settlement or not does not impact the classification of the liability. It has added guidance about lending conditions and how these can impact classification and has included requirements for liabilities that can be settled using an entity's own instruments.

Management does not anticipate that the adoption of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

IAS 7 and IFRS 7 Amendments – Supplier finance arrangements
The amendments to IAS 7 and IFRS 7 added disclosure objectives to IAS 7 to enable the users of the financial statements to assess how the supplier finance arrangements effect an entity's liabilities and cash flows, and to understand the effect of these arrangements on an entity's exposure to liquidity risk and how the entity might be affected if the arrangements were no longer available to it. While the amendments do not explicitly define supplier finance arrangements it instead describes characteristics of such arrangements.

To meet the disclosure objectives, an entity will be required to disclose in aggregate for its supplier finance arrangements:

- The terms and conditions of the arrangements
- The carrying amount, and associated line items presented in the entity's statement of financial position, of the liabilities that are part of the arrangements
- The carrying amount, and associated line items for which the suppliers have already received payment from the finance providers
- Ranges of payment due dates for both those financial liabilities that are part of a supplier finance arrangement and comparable trade payables that are not part of a supplier finance arrangement
- Liquidity risk information

The amendments, which contain specific transition reliefs for the first annual reporting period in which an entity applies the amendments, are applicable for annual reporting periods beginning on or after 1 January 2024.

Management will make required disclosures in the consolidated financial statements when the amendments become effective.

IAS 21 Amendments – Lack of exchangeability
The amendments to IAS 21 addresses determination of exchange rate when there is long term lack of exchangeability. The amendments:

- Specify when a currency is exchangeable into another currency and when it is not — a currency is exchangeable when an entity is able to exchange that currency for the other currency through markets or exchange mechanisms that create enforceable rights and obligations without undue delay at the measurement date and for a specified purpose; a currency is not exchangeable into the other currency if an entity can only obtain an insignificant amount of the other currency.
- Specify how an entity determines the exchange rate to apply when a currency is not exchangeable — when a currency is not exchangeable at the measurement date, an entity estimates the spot exchange rate as the rate that would have applied to an orderly transaction between market participants at the measurement date and that would faithfully reflect the economic conditions prevailing.

Notes to the consolidated financial statements (continued)

3 Changes in accounting policies (continued)

3.2 IASB Standards issued but not yet effective (continued)

IAS 21 Amendments – Lack of exchangeability (continued)

- Require the disclosure of additional information when a currency is not exchangeable — when a currency is not exchangeable an entity discloses information that would enable users of its financial statements to evaluate how a currency's lack of exchangeability affects, or is expected to affect, its financial performance, financial position and cash flows.

Management does not anticipate that the adoption of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

IAS 16 Amendments – Lease liability in a sale and leaseback
The amendments to IFRS 16 requires a seller-lessee to measure the right-of-use asset arising from a sale and leaseback transaction at the proportion of the previous carrying amount of the asset that relates to the right of use the seller-lessee retains. Accordingly, in a sale and leaseback transaction the seller-lessee recognises only the amount of any gain or loss that relates to the rights transferred to the buyer-lessor. The initial measurement of the lease liability that arise from a sale and leaseback transaction is a consequence of how the seller-lessee measures the right-of-use asset and the gain or loss recognised at the date of the transaction. The new requirements do not prevent a seller-lessee from recognising in any gain or loss relating to the partial or full termination of a lease.

Management does not anticipate that the adoption of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

4 Material accounting policies

The material accounting policies and measurements bases adopted in the preparation of the consolidated financial statements are summarised below:

4.1 Basis of preparation

The consolidated financial statements are prepared under the historical cost convention modified to include the measurement of investments at fair value through profit or loss, investments at fair value through other comprehensive income and investment property.

The consolidated financial statements are presented in Kuwaiti Dinars (KD).

The Group has elected to present the "statement of comprehensive income" in two statements: the "statement of profit or loss" and the "statement of profit or loss and other comprehensive income".

The Group attributes total comprehensive income or loss of subsidiaries between the owners of the parent and the non-controlling interests based on their respective ownership interests.

4.2 Basis of consolidation

The parent controls a subsidiary if it is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary. The financial statements of the subsidiaries are prepared for reporting dates which are typically not more than three months from that of the Parent Company, using consistent accounting policies. Adjustments are made for the effect of any significant transactions or events that occur between that date and the reporting date of the Parent Company's financial statements.

Notes to the consolidated financial statements (continued)

4 Material accounting policies (continued)

4.2 Basis of consolidation (continued)

All transactions and balances between Group companies are eliminated on consolidation, including unrealised gains and losses on transactions between Group companies. Where unrealised losses on intra-Group asset sales are reversed on consolidation, the underlying asset is also tested for impairment from a Group perspective. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Profit or loss and other comprehensive income of subsidiaries acquired or disposed of during the year are recognised from the effective date of acquisition, or up to the effective date of disposal, as applicable.

Non-controlling interests, presented as part of equity, represent the portion of a subsidiary's profit or loss and net assets that is not held by the Group. The Group attributes total comprehensive income or loss of subsidiaries between the owners of the parent and the non-controlling interests based on their respective ownership interests.

When a controlling interest in the subsidiaries is disposed of, the difference between the selling price and the net asset value plus cumulative translation difference and goodwill is recognised in the consolidated statement of profit or loss. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 when applicable, or the cost on initial recognition of an investment in an associate or a joint venture.

However, changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the noncontrolling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Parent Company.

4.3 Business combinations

The Group applies the acquisition method in accounting for business combinations. The consideration transferred by the Group to obtain control of a subsidiary is calculated as the sum of the acquisition-date fair values of assets transferred, liabilities incurred and the equity interests issued by the Group, which includes the fair value of any asset or liability arising from a contingent consideration arrangement. Acquisition costs are expensed as incurred. For each business combination, the acquirer measures the non-controlling interests in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through consolidated statement of profit or loss.

The Group recognises identifiable assets acquired and liabilities assumed in a business combination regardless of whether they have been previously recognised in the acquiree's financial statements prior to the acquisition. Assets acquired and liabilities assumed are generally measured at their acquisition-date fair values.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Notes to the consolidated financial statements (continued)

4 Material accounting policies (continued)

4.4 Revenue recognition

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers service to a customer.

The Group follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when/as performance obligation(s) are satisfied.

The total transaction price for a contract is allocated amongst the various performance obligations based on their relative stand-alone selling prices. The transaction price for a contract excludes any amounts collected on behalf of third parties.

Revenue is recognised either at a point in time or over time, when (or as) the Group satisfies performance obligations by transferring the promised services to its customers.

The Group recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts, if any, as other liabilities in the consolidated statement of financial position. Similarly, if the Group satisfies a performance obligation before it receives the consideration, the Group recognises either a contract asset or a receivable, if any, in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

4.4.1 Asset management services

The Group provides asset management services to its customers and recognizes revenue from the following sources:

- *Management and performance fees*

Management fees is variable consideration based on the net assets value of portfolios and funds at pre-agreed rates in accordance with the respective contracts with customers for the supervision and managing portfolios' assets.

Performance fees is variable consideration based on the performance of portfolios and funds, relative to a benchmark of realised appreciation of the underlying investments of those portfolios and funds.

- *Custodian fees*

Custodian fees is variable consideration based on the net assets value of portfolios and funds at pre-agreed rates in accordance with the respective contracts with customers for the safe custody of the assets.

- *Transaction fees*

Transaction fees is variable consideration based on the net asset value of portfolios and funds at pre-agreed rates in accordance with the respective contracts with customers for conducting buy/sell transactions for the customers.

4.5 Interest income on financial assets

Interest income is recognised using the effective interest method.

Notes to the consolidated financial statements (continued)

4 Material accounting policies (continued)

4.6 Dividend income

Dividend income is recognised when the right to receive payment is established.

4.7 Operating expenses

Operating expenses are recognised in consolidated statement of profit or loss upon utilisation of the service or at the date of their origin.

4.8 Taxation

4.8.1 Kuwait Foundation for the Advancement of Sciences (KFAS)

The contribution to KFAS is calculated at 1% of taxable profit of the Group attributable to the shareholders of the Parent Company in accordance with the modified calculation based on the Foundation's Board of Directors' resolution, which states that income from associates and subsidiaries, Board of Directors' remuneration, transfer to statutory reserve should be excluded from profit for the year when determining the contribution.

4.8.2 Zakat

Contribution to Zakat is calculated at 1% of the profit of the Group attributable to the shareholders of the Parent Company in accordance with the Ministry of Finance resolution No. 58/2007 effective from 10 December 2007.

Under the Zakat regulations, no carry forward of losses to the future years or any carry back to prior years is permitted.

4.9 Financial instruments

4.9.1 Recognition, initial measurement and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities are described below.

A financial asset (or, where applicable a part of financial asset or part of group of similar financial assets) is primarily derecognised when:

- rights to receive cash flows from the assets have expired;
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and either
  - (a) the Group has transferred substantially all the risks and rewards of the asset or
  - (b) the Group has neither transferred nor retained substantially all risks and rewards of the asset, but has transferred control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, a new asset is recognised to the extent of the Group's continuing involvement in the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in consolidated statement of profit or loss.

Notes to the consolidated financial statements (continued)

4 Material accounting policies (continued)

4.9 Financial instruments (continued)

4.9.2 Classification of financial assets

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

- financial assets at amortised cost
- financial assets at fair value through other comprehensive income (FVTOCI)
- financial assets at fair value through profit or loss (FVTPL)

The classification is determined by both:

- the entity's business model for managing the financial asset
- the contractual cash flow characteristics of the financial asset.

The Group may make the following irrevocable election/designation at initial recognition of a financial asset:

- the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if certain criteria are met (see note 4.9.3 below); and

- the Group may irrevocably designate a debt investment that meets the amortised cost or FVTOCI criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

4.9.3 Subsequent measurement of financial assets

a) Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding

After initial recognition, these are measured at amortised cost using the effective interest rate method, less provision for impairment. Discounting is omitted where the effect of discounting is immaterial.

The Group's financial assets at amortised cost comprise of the following:

- *Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

- *Accounts receivable and other assets*

Accounts receivable are stated at original invoice amount less allowance for any uncollectible amounts. Bad debts are written off as incurred.

Receivables which are not categorised under any of the above are classified as "other assets".

b) Financial assets at FVTOCI

The Group's financial assets at FVTOCI comprise investment in equity shares. These represent investments in equity shares of various companies and include both quoted and unquoted.

Notes to the consolidated financial statements (continued)

4 Material accounting policies (continued)

4.9 Financial instruments (continued)

4.9.3 Subsequent measurement of financial assets (continued)

b) Financial assets at FVTOCI (continued)

On initial recognition, the Group may make an irrevocable election (on an instrument - by - instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short - term profit - taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the fair value reserve. The cumulative gain or loss is transferred to retained earnings within the consolidated statement of changes in equity on de-recognition.

Dividends on these investments in equity instruments are recognised in the consolidated statement of profit or loss.

c) Financial assets at FVTPL

Financial assets that do not meet the criteria for measurement at amortised cost or FVTOCI are categorised at fair value through profit and loss. Further, irrespective of business model financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL. The category also contains investments in equity shares.

Assets in this category are measured at fair value with gains or losses recognised in consolidated statement of profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

The Group's financial assets at FVTPL comprise investment in equity shares.

4.9.4 Impairment of financial assets

All financial assets except for those at FVTPL and equity investments at FVTOCI are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

The Group recognises a loss allowance for expected credit losses ("ECL") on financial assets at amortised cost or at FVTOCI.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial asset.

Notes to the consolidated financial statements (continued)

4 Material accounting policies (continued)

4.9 Financial instruments (continued)

4.9.4 Impairment of financial assets (continued)

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward - looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

The Group always recognises lifetime ECL for accounts receivable and other assets. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The Group recognises an impairment gain or loss in the consolidated statement of profit or loss for all financial assets with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognised in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the consolidated statement of financial position.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

4.9.5 Classification and subsequent measurement of financial liabilities

The Group's financial liabilities include accounts payable and other liabilities and lease liabilities.

The subsequent measurement of financial liabilities depends on their classification as follows:

- *Financial liabilities at amortised cost*

These are stated using effective interest rate method. Accounts payable and other liabilities and lease liabilities (refer note 4.16) are classified as financial liabilities other than at FVTPL.

Accounts payable and other liabilities

Accounts payable and other liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed or not.

4.10 Amortised cost of financial instruments

This is computed using the effective interest method less any allowance for impairment. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate.

Notes to the consolidated financial statements (continued)

4 Material accounting policies (continued)

4.11 Trade and settlement date accounting

All 'regular way' purchases and sales of financial assets are recognised on the trade date i.e. the date that the entity commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

4.12 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

4.13 Fair value of financial instruments

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For financial instruments not traded in an active market, the fair value is determined using appropriate valuation techniques. Such techniques may include using recent arm's length market transactions; reference to the current fair value of another instrument that is substantially the same; a discounted cash flow analysis or other valuation models.

4.14 Impairment testing of non-financial assets

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount, which is the higher of fair value less costs to sell and value-in-use. To determine the value-in-use, management estimates expected future cash flows from the asset or each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group's latest approved budget, adjusted as necessary to exclude the effect of future reorganisations and assets enhancements. Discount factors are determined individually for each asset or cash-generating unit and reflect management's assessment of respective risk profiles, such as market and asset-specific risks factors.

Impairment loss is charged pro rata to the assets in the cash-generating unit. With the exception of goodwill, all assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment charge is reversed if the cash-generating unit's recoverable amount exceeds its carrying amount.

4.15 Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation, and are accounted for using the fair value model.

Investment properties are initially measured at cost, including transaction costs. Subsequently, investment properties are re-measured at fair value on an individual basis based on valuations by independent real estate valuers and are included in the consolidated statement of financial position. Changes in fair value are taken to the consolidated statement of profit or loss.

Investment properties are de-recognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the consolidated statement of profit or loss in the year of retirement or disposal.

Notes to the consolidated financial statements (continued)

4 Material accounting policies (continued)

4.15 Investment properties (continued)

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

4.16 Leased assets

The Group as a lessee

A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

To apply this definition, the Group assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group
- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract
- the Group has the right to direct the use of the identified asset throughout the period of use. The Group assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

The Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

Measurement and recognition of leases as a lessee

At lease commencement date, the Group recognises a right-of-use asset and a lease liability on the balance sheet measured as follows:

Right-of-use asset

The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

Subsequent to initial measurement, the Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist.

Lease liability

At the commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate.

Notes to the consolidated financial statements (continued)

4 Material accounting policies (continued)

4.16 Leased assets (continued)

The Group as a lessee (continued)

Lease liability (continued)
Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability is reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

4.17 Property and equipment
Property and equipment is stated at cost less accumulated depreciation and any impairment in value. The Group depreciates its property and equipment using the straight-line method at rates sufficient to write off the assets over their estimated useful economic lives.

The useful life and depreciation method are reviewed periodically to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits arising from items of property.

Material residual value estimates and estimates of useful life are updated as required, but at least annually.

When assets are sold or retired, their cost and accumulated depreciation are eliminated from the accounts and any gain or loss resulting from their disposal is recognised in the consolidated statement of profit or loss and other comprehensive income.

4.18 Provisions, contingent assets and contingent liabilities
Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic resources will be required from the Group and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. Provisions are discounted to their present values, where the time value of money is material.

Contingent assets are not recognised in the consolidated financial statements, but are disclosed when an inflow of economic benefits is probable.

Contingent liabilities are not recognised in the consolidated statement of financial position, but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

4.19 Equity, reserves and dividend payments
Share capital represents the nominal value of shares that have been issued and paid up.

Statutory reserve comprises appropriations of current and prior period profits in accordance with the requirements of the Companies' Law and the Parent Company's Articles of Association.

Notes to the consolidated financial statements (continued)

4 Material accounting policies (continued)

4.19 Equity, reserves and dividend payments (continued)

Other components of equity include the following:

- foreign currency translation reserve – comprises foreign currency translation differences arising from the translation of financial statements of the Group's entities that have different reporting currency from the Parent Company.
- Cumulative changes in fair value– comprises gains and losses relating to investments at fair value through other comprehensive income.

Retained earnings include all current and prior period profits.

All transactions with owners of the Parent Company are recorded separately within equity.

Dividend distributions payable to equity shareholders are included in other liabilities when the dividends have been approved in a general meeting.

4.20 Foreign currency translation

4.20.1 Functional and presentation currency

The consolidated financial statements are presented in currency Kuwait Dinar (KD), which is also the functional currency of the Parent Company. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

4.20.2 Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency of the respective Group entity, using the exchange rates prevailing at the dates of the transactions (spot exchange rate). Foreign exchange gains and losses resulting from the settlement of such transactions and from the re-measurement of monetary items denominated in foreign currency at year-end exchange rates are recognised in profit or loss. Non-monetary items are not retranslated at year-end and are measured at historical cost (translated using the exchange rates at the transaction date), except for non-monetary items measured at fair value which are translated using the exchange rates at the date when fair value was determined. Translation difference on non-monetary asset classified as, "fair value through profit or loss" is reported as part of the fair value gain or loss in the consolidated statement of profit or loss and "fair value through other comprehensive income" are reported as part of the cumulative change in fair value reserve within other comprehensive income.

4.20.3 Foreign operations

In the Group's financial statements, all assets, liabilities and transactions of Group entities with a functional currency other than the KD are translated into KD upon consolidation. The functional currency of the entities in the Group has remained unchanged during the reporting period.

On consolidation, assets and liabilities have been translated into KD at the closing rate at the reporting date. Goodwill and fair value adjustments arising on the acquisition of a foreign entity have been treated as assets and liabilities of the foreign entity and translated into KD at the closing rate. Income and expenses have been translated into KD at the average rate over the reporting period. Exchange differences are charged/credited to other comprehensive income and recognised in the foreign currency translation reserve in equity. On disposal of a foreign operation, the related cumulative translation differences recognised in equity are reclassified to profit or loss and are recognised as part of the gain or loss on disposal.

Notes to the consolidated financial statements (continued)

4 Material accounting policies (continued)

4.21 Employees' end of service benefits

The Parent Company and its local subsidiaries provides end of service benefits to its employees. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period in accordance with relevant labour law and the employees' contracts. The expected costs of these benefits are accrued over the period of employment. This liability, which is unfunded, represents the amount payable to each employee as a result of termination on the reporting date.

With respect to its Kuwaiti national employees, in addition to the end of service benefits, the Group makes contributions to the Public Institution for Social Security calculated as a percentage of the employees' salaries.

4.22 Fiduciary assets

Assets held in a trust or fiduciary capacity are not treated as assets of the Group and, accordingly, they are not included in these consolidated financial statements.

4.23 Related parties

Related parties represent board of directors, key management personnel and their close family members and other related parties such as major shareholders and companies in which board of directors and key management personnel of the Group are principal owners or over which they are able to exercise significant influence or joint control.

4.24 Climate-related matters

The Group considers climate-related matters in estimates and assumptions, where appropriate. Risks induced by climate changes include transition risks (eg regulatory changes and reputational risks) and physical risks due to weather related events (e.g. storms, wildfires, rising sea levels). The Group has not identified significant risks induced by climate changes that could negatively and materially affect the Group's consolidated financial statements. Management continuously assesses the impact of climate-related matters.

5 Significant management judgements and estimation uncertainty

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

5.1 Significant management judgments

In the process of applying the Group's accounting policies, management has made the following significant judgments, which have the most significant effect on the amounts recognised in the consolidated financial statements:

5.1.1 Business model assessment

The Group classifies financial assets after performing the business model test (please see accounting policy for financial instruments sections in note 4.9). This test includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured and the risks that affect the performance of the assets. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

Notes to the consolidated financial statements (continued)

5 Significant management judgements and estimation uncertainty (continued)

5.1 Significant management judgments (continued)

5.1.2 Judgements in determining the timing of satisfaction of performance obligations
The determination of the whether or not performance obligation criterial set out in IFRS 15 relating to transfer of control of goods to customers has been satisfied requires significant judgement.

5.1.3 Fair values of assets and liabilities acquired
The determination of the fair value of the assets, liabilities and contingent liabilities as a result of business combination requires significant judgement.

5.1.4 Control assessment
When determining control, management considers whether the Group has the practical ability to direct the relevant activities of an investee on its own to generate returns for itself. The assessment of relevant activities and ability to use its power to affect variable return requires considerable judgement.

5.1.5 Classification of real estate
Management decides on acquisition of a real estate whether it should be classified as trading, or investment property. Such judgement at acquisition determines whether these properties are subsequently measured at cost or net realisable value whichever is lower or fair value.

The Group classifies property as trading property if it is acquired principally for sale in the ordinary course of business.

The Group classifies property as investment property if it is acquired to generate rental income or for capital appreciation, or for undetermined future use.

5.2 Estimation uncertainty
Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

5.2.1 Impairment of financial assets
Measurement of estimated credit losses involves estimates of loss given default and probability of default. Loss given default is an estimate of the loss arising in case of default by customer. Probability of default is an estimate of the likelihood of default in the future. The Group based these estimates using reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

An estimate of the collectible amount of accounts receivable is made when collection of the full amount is no longer probable. For individually significant amounts, this estimation is performed on an individual basis. Amounts which are not individually significant, but which are past due, are assessed collectively and a provision applied according to the length of time past due, based on historical recovery rates.

5.2.2 Impairment of right-of-use-of-assets
At the financial position date, the Group management determines whether there is any indication of impairment of right-of-use-of-assets. In estimating the recoverable amount of the right-of-use assets, management makes assumptions about the achievable market rates for similar properties with similar lease terms. This method uses estimated cash flow projections over the lease term of the assets.

Notes to the consolidated financial statements (continued)

5 Significant management judgements and estimation uncertainty (continued)

5.2 Estimation uncertainty (continued)

5.2.2 Impairment of right-of-use-of-assets (continued)

Due to the associated uncertainty, it is possible that the estimates of the amount of lease payment that will be recovered through the sub-lease of the property may need to be revised in the future years.

5.2.3 Fair value of financial instruments

Management apply valuation techniques to determine the fair value of financial instruments where active market quotes are not available. This requires management to develop estimates and assumptions based on market inputs, using observable data that market participants would use in pricing the instrument. Where such data is not observable, management uses its best estimate. Estimated fair values of financial instruments may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

5.2.4 Revaluation of investment property

The Group carries its investment property at fair value, with changes in fair value being recognised in the consolidated statement of profit or loss. The Group engaged independent valuation specialists to determine fair values and the valuers have used valuation techniques to arrive at these fair values. These estimated fair values of investment property may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

6 Subsidiaries

6.1 Details of the Group's consolidated subsidiaries which are directly owned by the Parent Company at the end of the reporting period are as follows:

Name of the subsidiary	Country of registration & place of business	Proportion of ownership interest held by the Group 2023	2022	Nature of business
TIC Real Estate Company B.S.C.	Bahrain	100.00%	100.00%	Real Estate
Tharwa Islamic Fund (6.1.1)	Kuwait	75.97%	72.83%	Fund
Tharwa Arab Fund (6.1.1)	Kuwait	74.42%	64.69%	Fund
Tharwa Investment Fund (6.1.2)	Kuwait	52.94%	-	Fund

6.1.1 The increase in ownership in the above subsidiaries resulted from the redemption of units by the unit holders at net assets value (NAV). Accordingly, the increase in ownership did not result in any gain or loss.

6.1.2 The Group's investment in a local fund was classified as "investments at fair value through profit or loss" as management determined it did not have control over the fund's operations. However, on 1 October 2023, and as a result for the significant increase in ownership upon redemption of units by other unit holders, management of the Group determined that it is able to exercise control over the fund's operations and activities and, accordingly, reclassified the investment as an investment in subsidiary. The reclassification did not result in any goodwill or gain on bargain purchase.

Notes to the consolidated financial statements (continued)

6 Subsidiaries (continued)

The effective date of the acquisition was 1 October 2023 and was accounted in accordance in accordance with IFRS 3 as follows:

	KD
Cash and cash equivalents	7,174
Investment at fair value through profit or loss	3,413,036
Accounts receivable and other assets	10,837
Accounts payable and other liabilities	(18,654)
Non-controlling interests	(1,611,371)
Net assets on acquisition date	1,801,022
Fair value of investment at fair value through profit or loss	(1,801,022)
Goodwill or gain on bargain purchase	-

6.2 Subsidiaries with material non-controlling interests

The Group includes three subsidiaries, with material non-controlling interests (NCI):

Name	Proportion of ownership interests and voting rights held by the NCI		Profit/(loss) allocated to NCI		Accumulated NCI	
	2023	2022	2023 KD	2022 KD	2023 KD	2022 KD
Tharwa Islamic Fund	24.03%	27.17%	60,008	(3,957)	563,958	600,055
Tharwa Arab Fund	25.58%	35.31%	217,338	155,060	1,437,815	1,948,625
Tharwa Investment Fund	47.06%	-	134,045	-	1,734,861	-
			411,391	151,103	3,736,634	2,548,680

Summarised financial information for the above subsidiaries, before intragroup eliminations, is set out below:

6.2.1 Tharwa Islamic Fund

	31 Dec. 2023 KD	31 Dec. 2022 KD
Current assets	2,377,010	2,227,748
Total assets	2,377,010	2,227,748
Current liabilities	12,683	12,677
Total liabilities	12,683	12,677
Equity attributable to the shareholders of the Parent Company	1,800,369	1,615,016
Non-controlling interest	563,958	600,055

	Year ended 31 Dec. 2023 KD	Year ended 31 Dec. 2022 KD
Total comprehensive income for the year attributable to the shareholders of the Parent Company	185,352	4,460
Total comprehensive income/(loss) for the year attributable to NCI	60,008	(3,957)
Total comprehensive income for the year	245,360	503

Notes to the consolidated financial statements (continued)

6 Subsidiaries (continued)

6.2 Subsidiaries with material non-controlling interests (continued)

6.2.1 Tharwa Islamic Fund (continued)

	Year ended 31 Dec. 2023 KD	Year ended 31 Dec. 2022 KD
Net cash flow from operating activities	46,828	244
Net cash flow from investing activities	50,287	58,007
Net cash flow used in financing activities	(96,104)	(58,773)
Net cash outflow	1,011	(522)

6.2.2 Tharwa Arab Fund

	31 Dec. 2023 KD	31 Dec. 2022 KD
Current assets	5,894,198	5,638,464
Total assets	5,894,198	5,638,464
Current liabilities	243,207	118,912
Total liabilities	243,207	118,912
Equity attributable to the shareholders of the Parent Company	4,213,176	3,570,927
Non-controlling interest	1,437,815	1,948,625

	Year ended 31 Dec. 2023 KD	Year ended 31 Dec. 2022 KD
Total comprehensive income for the year attributable to the shareholders of the Parent Company	637,003	344,272
Total comprehensive income for the year attributable to NCI	217,338	155,060
Total comprehensive income for the year	854,341	499,332

	Year ended 31 Dec. 2023 KD	Year ended 31 Dec. 2022 KD
Net cash flow from operating activities	466,061	396,738
Net cash flow from investing activities	141,337	256,671
Net cash flow used in financing activities	(514,581)	(527,493)
Net cash inflow	92,817	125,916

Notes to the consolidated financial statements (continued)

6 Subsidiaries (continued)

6.2 Subsidiaries with material non-controlling interests (continued)

6.2.3 Tharwa Investment Fund

	31 Dec. 2023 KD
Current assets	3,703,707
Total assets	3,703,707
Current liabilities	17,185
Total liabilities	17,185
Equity attributable to the shareholders of the Parent Company	1,951,663
Non-controlling interest	1,734,861

	Year ended 31 Dec. 2023 KD
Total comprehensive income for the year attributable to the shareholders of the Parent Company	150,641
Total comprehensive income for the year attributable to NCI	134,045
Total comprehensive income for the year	284,686

	Year ended 31 Dec. 2023 KD
Net cash flow from operating activities	46,828
Net cash flow from investing activities	50,287
Net cash flow used in financing activities	(96,104)
Net cash inflow	1,011

7 Revenue from contracts with customers

The Group earns revenue from contracts with customers from its asset management services, which is rendered over time.

	Year ended 31 Dec. 2023 KD	Year ended 31 Dec. 2022 KD
Management and performance fees	1,834,771	1,702,774
Custodian and other fees	712,328	486,964
	2,547,099	2,189,738

Revenue from local and GCC portfolios and funds represents 98.28% of the revenue from contracts with customers for the year ended 31 December 2023 (31 December 2022: 97.74%).

Notes to the consolidated financial statements (continued)

8 Other gains/(losses) on financial assets

	Year ended 31 Dec. 2023 KD	Year ended 31 Dec. 2022 KD
Change in fair value of investments at FVTPL	2,253,046	432,171
Loss on disposal of investments at FVTPL	(512,192)	(1,292,681)
Dividend income from investments at FVTPL	649,996	602,235
	2,390,850	(258,275)

9 Basic and diluted earnings per share

Earnings per share is calculated by dividing the profit for the year attributable to the owners of the Parent Company by the weighted average number of ordinary shares outstanding during the year as follows:

	Year ended 31 Dec. 2023	Year ended 31 Dec. 2022
Profit for the year attributable to the owners of the Parent Company (KD)	2,251,966	348,269
Weighted average number of shares outstanding during the year	151,125,000	151,125,000
Basic and diluted earnings per share attributable to the owners of the Parent Company (Fils)	14.9	2.3

10 Cash and cash equivalents

	31 Dec. 2023 KD	31 Dec. 2022 KD
Cash on hand	257	321
Bank balances	738,303	1,580,585
Cash balances with portfolio managers	661,635	604,446
Fixed deposits	3,600,000	1,200,000
Cash and cash equivalents as per consolidated statement of financial position	5,000,195	3,385,352
Less: fixed deposits with original maturity period exceeding three months	(400,000)	(1,200,000)
Cash and cash equivalents as per consolidated statement of cash flow	4,600,195	2,185,352

The effective interest rate on fixed deposits as of 31 December 2023 ranged from 4.5% to 4.6% per annum. (31 December 2022: 3% to 3.125% per annum).

11 Investments at fair value through profit or loss

	31 Dec. 2023 KD	31 Dec. 2022 KD
Local quoted shares	22,620,858	21,814,515
Foreign quoted shares	3,774,550	-
Local managed funds (note 6.1.2)	5,107	1,793,403
	26,400,515	23,607,918

Notes to the consolidated financial statements (continued)

12 Accounts receivable and other assets

	31 Dec. 2023 KD	31 Dec. 2022 KD
Financial assets:		
Accrued income	438,119	423,332
Refundable deposit	41,340	41,350
Total financial assets	479,459	464,682
Non-financial assets:		
Prepaid expenses	64,896	86,770
Other assets	5,248	11,186
Total non-financial assets	70,144	97,956
Total accounts receivable and other assets	549,603	562,638

13 Investments at fair value through other comprehensive income

	31 Dec. 2023 KD	31 Dec. 2022 KD
Foreign quoted securities	45,976	52,702
Foreign unquoted securities	55,519	54,654
	101,495	107,356

These investments in equity instruments are held for medium to long-term strategic purposes. Accordingly, the Group has elected to designate these investments in equity instruments as at FVTOCI as it believes that recognising short-term fluctuations in the fair value of these investments in consolidated statement of profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes and realising their performance potential in the long run.

14 Investment property

Investment property represents a plot of land located in Al-Seef district in the Kingdom of Bahrain.

The movement for investment property is as follows:

	31 Dec. 2023 KD	31 Dec. 2022 KD
Balance at the beginning of the year	789,666	780,037
Foreign currency translation adjustment arising on consolidation	1,159	9,629
Balance at the end of the year	790,825	789,666

The details of fair valuation of investment property are disclosed in note 21.3.

Notes to the consolidated financial statements (continued)

15 Right-of-use of assets

The Group leases its office premises which have been accounted for as right-of-use assets as follows:

	31 Dec. 2023 KD	31 Dec. 2022 KD
Cost:		
At 1 January	**702,282**	702,282
At 31 December	**702,282**	702,282
Accumulated Depreciation:		
At 1 January	**456,494**	316,034
Depreciation expense for the year	**140,460**	140,460
At 31 December	**596,954**	456,494
Net book value – 31 December	**105,328**	245,788

The total cash outflow for leases for the year ended 31 December 2023 amounted to KD163,620 (2022: KD163,620).

The useful life of the right-of-use assets is 5 years.

16 Accounts payable and other liabilities

	31 Dec. 2023 KD	31 Dec. 2022 KD
Financial liabilities:		
Accrued expenses and benefits	**1,009,246**	194,749
KFAS payable	**90,180**	68,980
Accrued dividends	**61,396**	166,396
Zakat payable	**19,430**	1,321
Board of Directors' remuneration	**63,000**	-
Due to non-controlling interests	**216,428**	90,859
Other liabilities	**19,231**	15,972
	1,478,911	538,277

17 Lease liabilities

Lease liabilities are presented in the consolidated statement of financial position as follows:

	31 Dec. 2023 KD	31 Dec. 2022 KD
Current	**119,116**	150,776
Non-current	**-**	119,120
	119,116	269,896

Notes to the consolidated financial statements (continued)

17 Lease liabilities (continued)

The Group has leases for its offices. Future minimum lease payments at 31 December 2023 and 31 December 2022 were as follows:

	Minimum lease payments due		Total
	One year KD	Between 1 year and five years KD	KD
31 December 2023:			
Lease payments	122,707	-	122,707
Finance charges	(3,591)	-	(3,591)
Net present value	119,116	-	119,116
31 December 2022:			
Lease payments	163,620	122,711	286,331
Finance charges	(12,844)	(3,591)	(16,435)
Net present value	150,776	119,120	269,896

18 Share capital and share premium

As of 31 December 2023, the authorized, issued and paid up share capital of the Parent Company consists of 151,125,000 shares with of 100 fils each (31 December 2022: 151,125,000 shares 100 fils each). All shares are paid in cash.

The share premium is non-distributable.

19 Statutory reserve

In accordance with the Companies Law and the Parent Company's Articles of Association, 10% of the profit attributable to shareholders of the Parent Company before provisions for contribution to KFAS, Zakat and directors' remuneration is to be transferred to statutory reserve. No transfer is required in a year when losses are made or where cumulative losses exist. The Parent Company may resolve to discontinue such annual transfer when the reserve equals or exceeds 50% of the paid-up share capital.

Distribution of the statutory reserve is limited to the amount required to enable the payment of a dividend of 5% of paid-up share capital to be made in years when retained earnings are not sufficient for the payment of a dividend of that amount.

20 Related party transactions

Related parties represent board of directors, key management personnel and their close family members and other related parties such as major shareholders and companies in which board of directors and key management personnel of the Group are principal owners or over which they are able to exercise significant influence or joint control.

Significant transactions and balances with related parties included in the consolidated financial statements are as follows:

	31 Dec. 2023 KD	31 Dec. 2022 KD
Balances in the consolidated statement of financial position:		
Accounts receivable and other assets	156,676	149,375
Accounts payable and other liabilities	216,428	90,859
Remuneration and other benefits	565,620	494,164
Board of Directors remuneration (included in accounts payable and other assets)	63,000	-

Notes to the consolidated financial statements (continued)

20 Related party transactions (continued)

	Year ended 31 Dec. 2023 KD	Year ended 31 Dec. 2022 KD
Transactions included in the consolidated statement of profit or loss:		
Revenue from contracts with customers	500,046	568,304
Key management compensation:		
Short term benefits and other benefits	1,040,172	380,425
Board of Directors remuneration	63,000	-

21 Fair value measurement

21.1 Fair value hierarchy

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Financial assets and financial liabilities measured at fair value in the consolidated statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

21.2 Fair value measurement of financial instruments

The carrying amounts of the Group's financial assets and liabilities as stated in the consolidated statement of financial position may also be categorized as follows:

	31 Dec. 2023 KD	31 Dec. 2022 KD
Financial assets:		
At amortised cost:		
Cash and cash equivalents (note 10)	5,000,195	3,385,352
Accounts receivable and other assets (note 12)	549,603	562,638
Financial assets at fair value:		
Investments at fair value through profit or loss (note 11)	26,400,515	23,607,918
Investments at fair value through other comprehensive income (note 13)	101,495	107,356
Total	32,051,808	27,663,264
Financial liabilities:		
At amortised costs:		
Accounts payable and other liabilities (note 16)	1,478,911	538,277
Lease liabilities (note 17)	119,116	269,896
Total	1,598,027	808,173

Notes to the consolidated financial statements (continued)

21 Fair value measurement (continued)

21.2 Fair value measurement of financial instruments (continued)

Management considers that the carrying amounts of financial assets and financial liabilities, which are stated at amortised cost, approximate their fair values.

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The financial assets and liabilities measured at fair value on a recurring basis in the consolidated statement of financial position are grouped into the fair value hierarchy as follows:

	Note	Level 1 KD	Level 2 KD	Level 3 KD	Total KD
31 December 2023					
Investments at FVTPL:					
- Local quoted shares	a	22,620,858	-	-	22,620,858
- Foreign quoted shares	a	3,774,550	-	-	3,774,550
- Managed funds	b	-	5,107	-	5,107
Investment at FVTOCI:					
- Foreign quoted shares	a	45,976	-	-	45,976
- Foreign unquoted shares	c	-	-	55,519	55,519
		26,441,384	5,107	55,519	26,502,010
31 December 2022					
Investments at FVTPL:					
- Local quoted shares	a	21,814,515	-	-	21,814,515
- Managed funds	b	-	1,793,403	-	1,793,403
Investment at FVTOCI:					
- Foreign quoted shares	a	52,702	-	-	52,702
- Foreign unquoted shares	c	-	-	54,654	54,654
		21,867,217	1,793,403	54,654	23,715,274

There have been no transfers between levels during the reporting period.

Measurement at fair value
The Group's finance team performs valuations of financial items for financial reporting purposes, including Level 3 fair values, in consultation with third party valuation specialists for complex valuations, where required. Valuation techniques are selected based on the characteristics of each instrument, with the overall objective of maximising the use of market-based information.

The methods and valuation techniques used for the purpose of measuring fair value are as follows:

a) Quoted shares
All quoted equity securities are publicly traded in stock exchanges. Fair values have been determined by reference to their quoted bid prices at the reporting date.

b) Managed funds
The underlying investments of the funds primarily comprise of equity securities and the fair value of the investment as of the reporting date is determined based on net asset values reported by the fund manager.

Notes to the consolidated financial statements (continued)

21 Fair value measurement (continued)

21.2 Fair value measurement of financial instruments (continued)

Measurement at fair value (continued)

c) Unquoted shares

Unquoted shares are measured at fair value estimated using various models such as adjusted net asset value reported using latest available financial information, discounted cash flow model or other valuation techniques which includes some assumptions that are not supportable by observable market prices or rates.

The following table provides information about the sensitivity of the fair values measurement to changes in the most significant unobservable inputs:

Financial asset	Valuation technique	Significant unobservable input	Range (weighted average)	Sensitivity of the fair value measurement to the input
Unquoted shares	Adjusted NAV	Discount for lack of marketability	10% - 20%	Higher the discount rate, lower the value
Managed funds	NAV reported by investment manager	Fair market value/carrying value of the underlying assets	N/A	Higher the FMV/CV of the assets, higher the value

Level 3 Fair value measurements

The Group's measurement of financial assets and liabilities classified in level 3 uses valuation techniques inputs that are not based on observable market date. The financial instruments within this level can be reconciled from beginning to ending balances as follows:

	31 Dec. 2023 KD	31 Dec. 2022 KD
Opening balance	54,654	408,355
Disposal	-	(614,735)
Change in fair value	865	261,034
	55,519	54,654

Changing inputs to the level 3 valuations to reasonably possible alternative assumption would not change significantly amounts recognised in profit or loss, total assets or total liabilities or total equity.

21.3 Fair value measurement of non-financial assets

The fair value of the investment property has been determined based on a valuation obtained from an independent valuer who is specialised in valuing these types of investment properties. The significant inputs and assumptions are developed in close consultation with management.

The fair value of the investment property was determined using market comparison approach. The market approach reflects observed prices for recent market transactions for similar properties and incorporates adjustments for factors specific to the land in question, including plot size, location, encumbrances, current use and construction costs.

Fair value of the investment property has been considered as Level 3.

Notes to the consolidated financial statements (continued)

22 Risk management objectives and policies

The Group's activities expose it to variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk.

The Parent Company's Board of Directors sets out policies for reducing the risks discussed below.

The Group does not use derivative financial instruments.

The most significant financial risks to which the Group is exposed to are described below.

22.1 Market risk

a) Foreign currency risk

Foreign currency risk is the risk that the fair values or future cash flows of financial instruments will fluctuate due to changes in foreign exchange rates.

The Group mainly operates in the Middle Eastern countries and USA and is exposed to foreign currency risk arising from various foreign currency exposures, primarily with respect to US Dollar, Saudi Riyal, United Arab Emirates Dirham and Kuwaiti Dinar. The Group's balance sheet can be significantly affected by the movement in these currencies. To mitigate the Group's exposure to foreign currency risk, non-Kuwaiti Dinar cash flows are monitored.

Generally, the Group's risk management procedures distinguish short-term foreign currency cash flows (due within twelve months) from longer-term cash flows. Foreign currency risk is managed by the Group by diversifying its investments geographically and monitoring the foreign currency movements and the Groups open positions on a regular basis.

The Group's significant net exposure to foreign currency denominated monetary assets less monetary liabilities at the reporting date, translated at the closing rates are as follows:

	31 Dec. 2023 Equivalent KD	31 Dec. 2022 Equivalent KD
US Dollars	**1,818,711**	143,839

If the Kuwaiti Dinar had strengthened against the foreign currencies by 5% (2022: 5%), then this would have the following impact on the profit for the year. There is no significant impact on the Group's equity.

	Profit/(loss) for the year	
	31 Dec. 2023 KD	31 Dec. 2022 KD
US Dollars	**90,936**	7,192

If the Kuwaiti Dinar had weakened against the foreign currencies by 5% (2022: 5%), then there would be an opposite impact on the profit for the year, and the negative balances shown above would be positive and positive balances will be negative.

Exposures to foreign exchange rates vary during the year depending on the volume and nature of the transactions. Nonetheless, the analysis above is considered to be representative of the Group's exposure to the foreign currency risk.

Notes to the consolidated financial statements (continued)

22 Risk management objectives and policies (continued)

22.1 Market risk (continued)

b) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future profitability or the fair values of financial instruments.

The Group is not significantly exposed to interest rate as the Group does not have interest bearing liabilities at the reporting date except lease liabilities which are fixed at inception of lease.

c) Price risk

This is a risk that the value of financial instruments will fluctuate as a result of changes in market prices, whether these changes are caused by factors specific to individual instrument or its issuer or factors affecting all instruments, traded in the market. The Group is exposed to equity price risk with respect to its listed equity investments, which are primarily located in Kuwait, KSA, USA and Europe. Equity investments are classified as investments at FVTOCI and investments at FVTPL.

The equity price risk sensitivity is determined on the exposure to equity price risks at the reporting date. If equity prices had been 5% higher, the effect on the profit for the years ended 31 December 2023 and 2022 would have been as follows. There is no significant effect on the other comprehensive income.

	Domestic		GCC and MENA		International	
	31 Dec. 2023 KD	31 Dec. 2022 KD	31 Dec. 2023 KD	31 Dec. 2022 KD	31 Dec. 2023 KD	31 Dec. 2022 KD
Investments at FVTPL	1,131,298	1,180,396	109,107	-	79,621	-

For a 5% decrease in the equity prices, there would be an equal and opposite impact on the profit for the year, and balances shown above would be negative.

22.2 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group's credit policy and exposure to credit risk is monitored on an ongoing basis. The Group seeks to avoid undue concentrations of risks with individuals or groups of customers in specific locations or business through diversification of its activities.

The Group's exposure to credit risk is limited to the carrying amounts of financial assets recognised at the reporting date, as summarized below:

	31 Dec. 2023 KD	31 Dec. 2022 KD
Cash and cash equivalents (excluding cash in hand)	4,999,938	3,385,031
Accounts receivable and other assets (note 12)	479,459	464,682
	5,479,397	3,849,713

Notes to the consolidated financial statements (continued)

22 Risk management objectives and policies (continued)

22.2 Credit risk (continued)

The Group continuously monitors defaults of customers and other counter parties, identified either individually or by group, and incorporate this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Group's policy is to deal only with creditworthy counterparties. The Group's management considers that all the above financial assets that are neither past due nor impaired for each of the reporting dates under review are of good credit quality.

None of the Group's financial assets are secured by collateral or other credit enhancements.

The credit risk for bank balances, cash balances with portfolio managers and short-term deposit is considered negligible, since the counterparties are reputable financial institutions and companies with high credit quality.

The credit risk on accounts receivable and other assets is considered low.

22.3 Concentration of assets

The distribution of financial assets by geographic region as at 31 December 2023 and 2022 as follows:

	Domestic KD	GCC and MENA & Other KD	International KD	Total KD
At 31 December 2023				
Cash and cash equivalents	4,713,041	6,086	281,068	5,000,195
Investments at FVTPL	22,625,965	2,182,136	1,592,414	26,400,515
Accounts receivable and other assets	549,280	323	-	549,603
Investments at FVTOCI	-	28,871	72,624	101,495
	27,888,286	2,217,416	1,946,106	32,051,808
At 31 December 2022				
Cash and cash equivalents	3,338,993	25,413	20,946	3,385,352
Investments at FVTPL	23,607,918	-	-	23,607,918
Accounts receivable and other assets	558,523	4,115	-	562,638
Investments at FVTOCI	-	28,828	78,528	107,356
	27,505,434	58,356	99,474	27,663,264

22.4 Liquidity risk

Liquidity risk is the risk that the Group will be unable to meet its liabilities when they fall due. To limit this risk, management has arranged diversified funding sources, manages assets with liquidity in mind, and monitors liquidity on a regular basis.

The table below summarises the maturity profile of the Group's assets and liabilities. Except for investments at FVTPL, investments at FVTOCI, investment property and right-of-use of assets, the maturities of assets and liabilities have been determined on the basis of the remaining period from the reporting date to the contractual maturity date. The maturity profile for investments carried at FVTPL, investments at FVTOCI, investment property and right-of-use of assets determined based on management's estimate of liquidation/useful life of those assets.

	411,779	16,038	261,236	119,120	808,173

Notes to the consolidated financial statements (continued)

23 Proposed dividend and general assembly

The Annual General Assembly of the shareholders held on 13 March 2023 approved the consolidated financial statements for the year ended 31 December 2022 without any dividend.

The directors' proposed for the year ended 31 December 2023, to distribute cash dividends of 9 Fils per share equivalent to KD1,360,125. and to pay the board of directors an amount of KD63,000 as a remuneration subject to the approval of the shareholders at the General Assembly of shareholders.

24 Fiduciary assets

The Parent Company, as a portfolios and funds manager on behalf of related parties and others, maintains securities in fiduciary accounts which are not reflected in the Group's statement of financial position. Assets under management on 31 December 2023 amounted to KD134,081,617 (31 December 2022: KD142,524,950), including the funds with net assets value of KD10,918,949 (31 December 2022: KD7,769,748) which have been consolidated in these consolidated financial statements.

The Group earned total fees of KD2,547,099 (31 December 2022: KD2,189,738) from the asset management activities.

25 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the costs of capital.

The Group manages the capital structure and makes adjustments in the light of changes in economic conditions and risk characteristics of the underlying assets. The Group has no credit facilities, as the Group depends on its cash to finance its activities.
